

LINO-CUTTING-TOOLS

No.: 120100

For lino and soft wood cutting, we especially recommend our popular lino cutting set sold into millions. It contains a beechwood handle, with unique blade remover, and five specially selected

cutting nibs. The nibs are nickel plated and made of strong 0.6mm steel. This versatile set comes attractively packed in a plastic box, with separate nib compartment.

Each cutting nib is made from 0.6 mm hardened steel, hand sharpened, and polished to a high quality finish.

No.: 120301
